

First Library Card

As a child's first teachers, parents and caregivers are instrumental in promoting reading readiness in children under five. Studies show that children who are read to from infancy, even for just 15 minutes a day, average two years ahead of others in their school work.

Allegheny County Library System's First Library Card lets preschool children check out books and movies on their own library card.

**It's never too early to start smart!
Register your child for a
First Library Card today!**
